6. Rubber rafts and watercraft must meet USCG safety standards and be at least 8 feet in length.

The Club wants to notify all Members and their Guests about two recent discoveries that are threatening fisheries nationwide. The first is an aquatic nuisance algae, *Didymosphenia germinata*, commonly called "rock snot". The second disease of concern is VHS, Viral Hemorrhagic Septicemia. The Club cannot emphasize enough the dangers the discoveries of *Didymo* and VHS pose to Lake Naomi – Timber Trails fishing. This very dangerous nuisance algae and disease are unwittingly spread by boats, boat trailers, bait buckets, wading equipment, clothing and fishing gear. Club Members are responsible for making sure that their own equipment and the equipment of their family and guests is new, has without question only been used in Lake Naomi – Timber Trails waters or has been treated as outlined below. If Members do not take this treat seriously enough and do not follow the recommended safety procedures, Members risk losing one of the most precious aspects of Lake Naomi – Timber Trails life. There are no known solutions for the removal or treatment of this algae and disease. Prevention is the only option.

The Club does require all boats, boat trailers, bait buckets, fishing gear and wading equipment used in other than Lake Naomi - Timber Trails waters to go through one of the following procedures (procedure number one is preferred):

Clean all gear (rod, reel, lines, nets, etc.) and especially felt-sole wading shoes or boots and neoprene waders with a 2% solution of household bleach and hot water (example: 3 liquid ounces bleach / 1 gallon water) and then allow to dry thoroughly for at least 48 hours.

Clean all gear with a 5% solution of antibacterial dish soap and 140 degree Fahrenheit hot water (example: 1 liquid cup antibacterial dish soap / 1 gallon water). Under this procedure waders, neoprene and felt shoes should be scrubbed and soaked for a minimum of 3 minutes.

If the previous two options are not feasible, please limit your gear to Lake Naomi – Timber Trails waters only.
