A great day of fishing and family fun can be had by all! So don't ruin a great time by violating any of the following policies and regulations.

## Lake Naomi Fishing Rules and Regulations

1. All fisherpersons must wear a current Membership ID along with their PA Fishing License. Unless fishing on a Member's property, Guests must be accompanied by the Club Member on all Lake Naomi/Timber Trails Property. Any person fishing on Club property, without the Club Member, will be escorted off of Club property. Those Guests registered as Temporary Members will continue to have all the rights and privileges associated with that membership.
2. Homeowners will be responsible for any Guests who violate Club rules and regulations. Harvesting of any game fish will result in the homeowner being responsible for the replacement cost of all harvested game fish.
3. All Pennsylvania Game fish must be live released. Species include - Largemouth Bass, Smallmouth Bass and Walleye. Harvesting of any game fish may result in the suspension or withdrawal of membership privileges.
4. Any boat on Lake Naomi - Timber Trails property must be registered, and have the current registration sticker on the watercraft. Any Member who has not registered their watercraft will be asked to remove their boat.

The Safety Boat operators will also see that the following additional Club guidelines are observed:

1. Gasoline motors of any type (other than Club owned for Club purposes) are not permitted on the lakes and ponds, even if they are not being utilized. Electric motors are permitted to propel watercraft registered with the Commonwealth.
2. Boaters and fisherpersons must maintain a safe distance (never closer than 25 feet) from the beach and swimming areas.
3. Swimming from watercraft or in other than beach areas is discouraged. All swimmers outside these areas **must** be closely accompanied by an attending boat and approved by the Club Beach Supervisor. **Do not dive** from watercraft. **Hidden rocks or stumps can cause serious injury.**
4. All boaters must wear their personal flotation device (PFD) at all times when the "PFD Required" flag is flying from the flagpole at Club Beach. This square yellow flag will be flown during times of high winds and unpredictable weather.

6. Rubber rafts and watercraft must meet USCG safety standards and be at least 8 feet in length.

The Club wants to notify all Members and their Guests about two recent discoveries that are threatening fisheries nationwide. The first is an aquatic nuisance algae, *Didymosphenia germinate*, commonly called "rock snot". The second disease of concern is VHS, Viral Hemorrhagic Septicemia. The Club cannot emphasize enough the dangers the discoveries of *Didymo* and VHS pose to Lake Naomi – Timber Trails fishing. This very dangerous nuisance algae and disease are unwittingly spread by boats, boat trailers, bait buckets, wading equipment, clothing and fishing gear. Club Members are responsible for making sure that their own equipment and the equipment of their family and guests is new, has without question only been used in Lake Naomi – Timber Trails waters or has been treated as outlined below. If Members do not take this treat seriously enough and do not follow the recommended safety procedures, Members risk losing one of the most precious aspects of Lake Naomi – Timber Trails life. There are no known solutions for the removal or treatment of this algae and disease. Prevention is the only option.

The Club does require all boats, boat trailers, bait buckets, fishing gear and wading equipment used in other than Lake Naomi - Timber Trails waters to go through one of the following procedures (procedure number one is preferred):

Clean all gear (rod, reel, lines, nets, etc.) and especially felt-sole wading shoes or boots and neoprene waders with a 2% solution of household bleach and 140 degree Fahrenheit hot water (example: 3 liquid ounces bleach / 1 gallon water) and then allow to dry thoroughly for at least 48 hours.

Clean all gear with a 5% solution of antibacterial dish soap and 140 degree Fahrenheit hot water (example: 1 liquid cup antibacterial dish soap / 1 gallon water). Under this procedure waders, neoprene and felt shoes should be scrubbed and soaked for a minimum of 3 minutes.

If the previous two options are not feasible, please limit your gear to Lake Naomi – Timber Trails waters only.
